- CSCI 220: Computer Organization and Architecture (C)
- Operating System (Pep9)
- Infrastructure & Network (HTTP)
- Pre-Calc, Calculus I & II, Linear Algebra, Discrete Mathematics

Work Experience

AI & Data Trainee, ITTI S.A.E., Asuncion, Paraguay June 2026 – August 2026
- Member of the Performance & Data Analytics team: sourced, delivered and analyzed data in partnership with business departments to improve products across Grupo Vázquez companies (ueno bank, upay, wepa, Monchis, MUV).

- Helped build a Python forecasting pipeline (Athena, DuckDB, pandas, SciPy) that predicts expected daily volume for 9 ueno bank transaction products, flags unusual days and projects the month-end close.
- Added a Paraguayan holiday pattern module so forecasts anticipate pre- and post-holiday spikes and drops, with the reason for each adjustment exported to Excel for management.
- Helped build a live executive dashboard tracking credit card transactions and active customers, with weekly and monthly trends measured using robust statistics.
- Co-designed the Orquestador, an internal multi-agent AI tool built with Cursor that sped up the team's work by turning plain-language questions into SQL, analysis and reports.

Lab Assistant, Greenhouse Lab, Marietta College August, 2023 – May 2024
- Cleaning and watering the plants
- Taking care of animals, plants, and tools inside the lab
- Implementing and working on the automatic watering system for 3 months.

Delivery and Bakery Helper, La Tata, Asuncion, Paraguay March 2023 – August 2023
- Assisted in preparing special customer orders and deliveries
- Managed money and customer communication
- Supported kitchen operations
- Planned and navigated delivery routes efficiently

Fast Food Worker, McDonald's, Mullingar, Ireland August, 2022 – February 2023
- Stocked supplies and inventory
- Control Cashier
- Assisted in training new employees
- Trained newly hired employees
- Assisted with store opening and closing procedures

Leadership Experience

TECHO Paraguay March 2018 – July 2023
- Building affordable wooden houses for communities with limited resources.
- We begin by meeting with communities to identify their basic needs (e.g., water, food, shelter).
- Recruit volunteers from various cities and assign leadership roles (many positions available, like training the new volunteers, getting all the materials, and others).
- House construction takes no more than 2 days.
- We follow up with communities for 1-2 months after completion.
- https://paraguay.techo.org

Teleton Paraguay March 2020
- An organization that helps kids and teenagers with physical and mental difficulties to make their lives better and provide them with better opportunities.
- Helped fundraise for children and teens with disabilities
- Collected donations in schools and public areas
- Recruited and delegated volunteer groups

Fundacion Koe'ju Paraguay - CFA Marzo 2019
- Providing community service by helping communities with limited resources, such as food and clothing.

Athletic Achievements

- Varsity Rower, Marietta College Rowing Team (2023–Present)
- Represented Paraguay in international rowing competitions
- Skills: teamwork, endurance, leadership under pressure, Time management.
- Medalist at international rowing regattas: Silver Medal - U23 & Junior PanAmerican Games 2025, Silver Medal – South American Rowing Championships Asuncion 2021, Silver and Bronze Medals at the Coastal Rowing Cup Lima, Peru 2022, Bronze Medal at the Qualifier for The PanAmerican Games Yucatan, Mexico 2021.
